

## Save Our Countryside

Before **5pm 17<sup>th</sup> February**, please let the Council have your views on the “Issues and Options” document at:

<https://www.eastleigh.gov.uk/lp36>

If there are few objections, Option B may become part of the Local Plan and be earmarked for 3,700 houses and a new major road in the gap between Bishopstoke, Colden Common and Fair Oak - linked to another plan for 2,500 houses stretching up Mortimers Lane. The plan will impact 3 sites of ancient natural woodland as well as beautiful countryside. Stoke Park Woods will be hemmed in by housing on all sides. Sites of Nature Conservation Interest will be affected. 6 miles of footpath & bridleway will become roads or routes through housing estates.

The new road will go in that gap, from Winchester Road in Fair Oak, across to Allbrook, across an SSSI.

If you love our local countryside, please let the Council know that you'd like it to remain green for our community to enjoy and for local wildlife to be protected.

Find out more about Bishopstoke Residents' Association's campaign to save Bishopstoke's countryside at
